

# Why upgrade?

Product lifecycle

OS compatibility

New Hardware

Running an older version of Vijeo Citect / CitectSCADA? Renew your support contract today and get a free UPGRADE to Vijeo Citect 2015. With across-the-board performance improvements, new functionality and enhancements to the upgrade process, Vijeo Citect 2015 is our most scalable & robust release in years! Check out the Upgrade video above to learn more.

## Special 'Upgrade to 2015' Promotion:

SCADA support lapsed? Renew your support contract before **31 December 2015** and we will waive the reinstatement fee. Don't miss out. Take advantage of this special offer and save!

In addition to the peace of mind you get from knowing that your SCADA system is backed by one of the best support programs in the industry, a Schneider Electric Support contract also entitles you to new product upgrades free of charge.

Get the latest Vijeo Citect 2015 release and start benefitting from the exciting new features including:

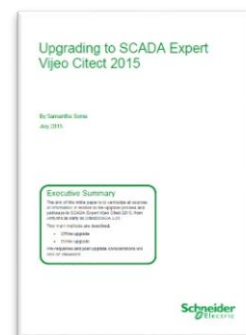

**Alarm Performance Improvements** - Alarm performance, encompassing both display clients and system resource footprint, has been optimised in this release, delivering up to 90% improvement over previous versions.

**Extensibility via Microsoft .NET Framework** - Interfacing directly with external Microsoft .NET assemblies through the Cicode programming language enables extension of functionality and interoperability by leveraging Microsoft technologies, supporting IT/OT convergence strategies.

**Integrated Equipment Graphics** - Configuration of projects has been streamlined by enabling the creation of Genies on a Graphics Page directly from the Equipment hierarchy.

**Run Vijeo Citect as a Native Windows Service** - Automate server operation on hardware start-up and continuous server operation across multiple user logins, enabling the software to run unattended and with no user account required to be logged into the server.

**Wonderware Connectivity** - The addition of Wonderware products to Schneider Electric's catalogue of industrial technology solutions gives you access to one of the most comprehensive industrial software portfolios available.
